

## APPENDIX H

# Scripture Readings in Biblical Order

Two symbols are used to indicate the two distinct patterns of Old Testament readings and psalms on the Sundays that follow Pentecost (Proper 4 through Proper 29). The symbol (+) indicates the pattern of semicontinuous Old Testament readings. The symbol (\*) indicates the pattern of complementary readings in which the Old Testament reading and the gospel reading are closely related. Because each pattern has its own consistency, it is important to select one or the other for use throughout the Sundays that follow Pentecost in a particular year.
